KNUDSEN URGES INDUSTRY FOR DEFENSE SPEED

Insurance Against American Involvement In War As Result Claimed.

DIFFICULTIES ERASED

Hardest Job Lies Ahead, Says Co-ordinator In Address At Detroit.

(By Associated Press)

DETROIT — Accelerated production of defense materials as insurance against American involvement in war is being asked of the nation's industrialists by national defense Coordinator William S. Knudsen.

Before a group of Detroit manufacturers, among them the presidents of three automotive companies and the production chief of another, Knudsen last night urged "speed and more speed" in filling defense orders.

"I'm not worried," he told a dinner of the Adcraft club of Detroit, "but I feel that if we can improve our setup, quantity and delivery of defense items, it would be the best insurance to keep us out of war.

"The more prepared we are, the less liable to attack. It is our duty to show the world that we are all that we claim we are."

His listeners included M. M. Gilman, president of the Packard Motor Car Co.; K. T. Keller, president of Chrysler Corp.; C. E. Wilson, acting president of General Motors Corp., and Charles E. Sorenson, Ford Motor Co. production chief.

All four companies are engaged in production of defense materials.

Knudsen called upon firms having defense contracts to make use of sub-contractors to ease the strain imposed upon the machine tool industry and so that idle space and equipment could be utilized.

He said that when he assumed the job of defense production chief six months ago, "certain difficulties" confronted the commission, "but today there are none."

"The defense program has been fully laid out and apportioned to manufacturers," he said. "The main thought has been to get the execution of the job into responsible hands and that we have."

Approximately $10,500,000,000 in defense orders have been apportioned, he continued, but he warned that "this program is go-

FUGITIVE HELD

Trusty Who Fled From O. S. R. Captured In Columbus.

An Ohio state reformatory trusty who fled from the institution dairy barn Monday was held in jail in Columbus today pending his return to Mansfield.

Columbus police identified the fugitive as Orrin Creamens, 22, of Franklin county who was serving a one to seven-year term for receiving stolen property.

Creamens, Columbus authorities said, was picked up at the home of a brother after an automobile stolen here Monday night was found abandoned two miles southeast of Columbus.

Mansfield police said the car was reported stolen from Park avenue east by Sterling L. Baker, 151 Gibson avenue. Creamens denied theft of the car, dispatches from Columbus said.

Sunday Edition Solves a Mystery

SLIGHTLY more than a decade ago a civic battle raged in Mansfield for 28 months over whether or not council should adopt a zoning ordinance.

What had become of that proposed ordinance and the elaborate map that accompanied it looked like a first class mystery to us. So we looked it up.

Tomorrow you can read the facts and see a copy of the map in the Sunday edition.

Also appearing will be the first in a series of stories on Mansfielders who follow traditional Old World customs in their observance of Christmas.

Excerpts from several letters received by Mansfielders from bombed areas in England will paint a graphic first-hand picture of life in the shadow of bombers' wings.

A picture and story will introduce you to Mme. Erica Morini who will be heard in a violin concert in the Civic Music series here Dec. 20.

There will be more in the "Do You Remember" and "Let's Go to School" series along with fiction, social news, editorials, women's page features, sports, comment by nationally known writers and complete coverage of the war in Europe as well as the latest local news.

SEEK TO LINK 2 SUSPECTS WITH ROBBERY HERE

Mansfield Police Check on Indianapolis Robbery to Solve Loan Hold-up.

Efforts were being made today by Police Chief Meade K. Bates to link two suspects held in Indianapolis in connection with a Colonial Finance company hold-up yesterday with a similar robbery here nine days ago.

Chief Bates said he was notified yesterday that two former Ohio State Reformatory inmates were being held by Indiana authorities in connection with the hold-up of a Colonial branch office in Indianapolis.

Although details concerning the robbery were not available, the chief said he immediately wired police in that city for pictures of the suspects so they may be viewed by employes of the Mansfield firm which was held up and robbed of $628 on Nov. 28.

It was disclosed that three employes of the finance company had failed to identify a suspect arrested yesterday as one of the four men who walked into the office on West Third street and locked two clerks and the assistant manager in a back room.

Bates said L. H. Jones, the assistant manager; Mrs. Mary Alice Cartnal, West Third street, and Mrs. Dolores Knott, 16 Glenbeck lane, viewed the suspect in a lineup but failed to identify him.

The man is being held in jail, however, until a report is received from the FBI in Washington.

The four bandits walked into the office, herded employes into a back room, robbed the place and fled. Police were hampered in their search, no one witnessing the men entering or leaving the office.

Both Parties To Celebrate Ohio Vote Victories

COLUMBUS—(UP)—Both Republicans and Democrats will hold "victory" dinners in Columbus early next year.

Democrats will celebrate the re-election of President Roosevelt on Jan. 11 with a dinner sponsored by National Committeeman Charles Sawyer, Cincinnati, and Mrs. Mildred Jaster, national committeewoman, Cleveland.

Republicans plan their celebration over the election of an almost solid G. O. P. state ticket in the form of a victory ball sometime in February, according to Mrs. Katherine Kennedy Brown, national committeewoman, Dayton.

The Democrats are trying to obtain either Vice-President-Elect Henry A. Wallace or Postmaster General Frank C. Walker to speak at their dinner.

Governor Bricker and Senator-elect Harold Burton probably will be the headliners at the Republican ball, according to Mrs. Brown.

BLIND HEROINE

Urge Early 'Adoptions' For Give-a-Christmas

Sponsoring Organizations Issue a Reminder That Those Who Wait Until Last Minute May Regret It.

This story is exclusively for those who make it an annual practice to share their Christmas joys with some family less fortunate than themselves; readers who never bother about the other fellow and who don't care, are asked to skip this and go on to the war news.

Along about Dec. 22 or 23, when you are rushing around with your arms filled with exciting bundles and Christmas is in the air, you are going to suddenly remember that you haven't adopted a family for Christmas and you're going to be a little unhappy at your own selfishness and thoughtlessness. Because you are the type that can't be happy unless you've done something to make others happy.

And you're going to dash to the telephone and call the Mansfield Service league and say: "I want a family with two or three cute youngsters," and will you be disappointed when told that all the smaller families have been adopted and if you want to share a Christmas you'll have to take nine or 10 youngsters plus the papa and mama?

It happens every year. Already there has been a fine response to the published lists of families in the Give-A-Christmas program, according to Mrs. R. R. Black, president of the Service league, who is in charge of the "clearing house" this year.

It happens that the smaller families are taken first, and about the only chance the big families have is that some club, sorority or Sunday school class adopt them.

The Give-A-Christmas program is sponsored by The News-Journal, the Mansfield Service league, and the Junior Association of Commerce. Those wishing to "adopt" a family for Christmas can do so by calling Mrs. R. R. Black, Service league president, at Canal 1798. Per-

26 LOSE JOBS

County Road Workers Laid Off Till Spring Work.

Twenty-six Richland county road workers were laid off yesterday for at least four and a half months to conserve dwindling road funds and because road work is slack during the winter, County Engineer Howard Sword said today.

While the county road department is in better financial condition now than last year at the same time when more men were laid off, the engineer said the funds will be needed for road construction and repairs next spring.

It is expected that the men will be put back to work about April 15 when the 1941 county road program gets under way. Dropping the men from the payroll will save $2,000 a month during the winter, Sword explained.

Nearly 50 men are still employed by the county to handle snow removal and cindering operations.

SET TO EQUIP SCHOOL GUARD

Auto Club Orders Coats, Hats, 'Stop' Signs For Patrol Units In Rural Schools.

The Richland county Auto club announced today that 50 coats and hats, Sam Browne belts, badges, and "stop" signs had been ordered to equip guards on county school buses.

After receiving notice that two school bus owners and trustees of Butler village had agreed to install the "guard" system, the order for equipment was immediately placed, Frank Beverstock, Auto club secretary, said.

The proposal to install guards on school buses was made this week by the Auto club to help prevent further accidents involving school buses. So far this year there have been five school bus accidents in the county, resulting in injury to 15 school children.

Besides the trustees of Butler village, C. N. Kuhn, R. D. 1, Mansfield, owner of four buses, and John Newcomer of Lexington, owner of seven buses, applied for the guard equipment this week, Beverstock said.

Operating much like the school boy patrol system in Mansfield, guards would patrol the road while children were getting on and off buses. During the past two weeks, two children have been seriously injured leaving school buses.

Canton Man's Conviction In Shooting Case Upheld.

CHARDON—(AP)—The court of appeals today upheld conviction of Joseph Battista, 30, of Canton, in the shooting of Robert Fenwick, Geauga county farmer.

Battista was found guilty of firing on Fenwick as the farmer ordered him and several other hunters off his property in November of last year. Fenwick has since recovered.

Battista, under sentence of one to 20 years in the Ohio penitentiary, has been free on $10,000 bond.

BULLETIN

ATHENS—(U.P.)—The Italian army has flown re-inforcements into Albania in an attempt to halt the Greeks, Italian prisoners brought to Greek headquarters said today.

(By Associated Press)

ATHENS—Greek troops were reported striking full force today at Italians retreating across the last mountain ridges toward the Albanian foothill strongholds of Chimara, Telepini and Elbasani.

Beyond these key towns the jumbled ridges through which the Greeks have driven their fierce counter-invasion of Albania drop away quickly to the coastal plain and lowlands along the Adriatic.

A government spokesman declared today that Greek advance units were pushing steadily beyond smoldering Porto Edda in fighting contact with the Italian rear guard which sought to cover the Fascist withdrawal up to the coastal road to Chimara, 20 miles north.

The Greeks made no immediate claim of capturing the artillery-battered Fascist base at Argirocastro, 15 miles northeast of Porto Edda. The spokesman said, however, Italian forces there had suffered "heavy losses" and were in full flight toward Tepelini, 15

BRAZIL KEEPS NEUTRAL ZONE PATROL WATCH

Friday Fight Between Nazi And British Ships Hints Further Action.

RAIDER SOUGHT

German Cruiser Fled After First Shots, Declare Uruguayan Reports.

(By International News Service)

MONTEVIDEO, Uruguay—Brazilian naval and air observers patrolled the South Atlantic waters off the Brazilian coast today, maintaining a sharp watch for an Anglo-German naval battle within the 300-mile Pan American neutrality zone.

Reports that such a battle might occur arose as more details filtered through regarding yesterday's skirmish between the British auxiliary cruiser Carnarvon Castle and a prowling Nazi sea raider.

With virtually the entire British South Atlantic squadron hunting for the German vessel, the theory that the Carnarvon Castle had encountered a German pocket battleship—either the Admiral Scheer or the Luetzow—began to disappear, while belief grew that a new sea battle may be impending.

Naval quarters in Montevideo said all evidence in their possession—meager though it is—indicates that the Carnarvon Castle's adversary bolted as soon as the first shots were fired.

The German vessel, these quarters said, apparently kept running until her superior speed placed her outside the range of the British guns.

Uruguayan quarters added that they understood the Carnarvon Castle gave up the chase and that the pursuit of the German vessel was taken up by a "squadron of regular British naval cruisers."

It was on the basis of these reports that the Brazilian observers, in naval planes and patrol boats, kept watch off the Brazilian coast today—ready to send back an immediate report should a naval battle develop within the continental neutrality zone.

Simultaneously, some doubt arose as to whether the Carnarvon Castle actually will dock in Montevideo harbor late today, as was at first reported. Although permission has been granted for her to

U. S. Considers Strong Protest In Deegan Case

WASHINGTON—(AP)—The state department today awaited furthec information from the American embassy in Paris before deciding finally whether to lodge a strong protest with the German government against the reported detention of Mrs. Elizabeth Deegan, an embassy clerk.

Mrs. Deegan, granddaughter of a former North Carolina senator, Peter C. Pritchard, has been held, without explanation, by German authorities in Paris since Dec. 1.

In Huntsville, Ala., her divorced husband, John Deegan, an architectural draftsman, declared neither he nor his 16-year-old daughter, Jane were worried. He added:

"Mrs. Deegan is quite competent and I daresay she is not worried either."

The state department said "appropriate action" was being taken by the Paris embassy.

Dover 'Carries on' In Face of Nazi Bombs and Shells

EDITOR'S NOTE: Frank Butler, International News Service correspondent at Dover, England, daily has watched the passage of German planes across the English coast, the shelling of Dover by German long-range guns and the "return visits" of the R. A. F.

• • •

By FRANK BUTLER
(International News Service Staff Correspondent)

DOVER, England—Throughout the world, even in England itself, there are millions today who believe that Dover is running in close competition with the ruins of Pompeii.

The rumor, planted by wishful broadcasting on the part of Germans and Italians, has grown into something big by the innocent though highly dangerous gossip of the English themselves.

But make no mistake: Britain's front line town is not in ruins. It is scarred, but not scared. Shocked by shells, but not shell-shocked.

A stranger driving into Dover would have to look for the damage caused by German bombs and shells—and look hard.

Dover has to face shelling as well as air raids. Eleven inch shells whiz across the straits as frequently as the cross-channel steamers of old.

But Dover is still standing.

At least fifty per cent of the German shells have fallen short into the sea and the majority of the others have caused huge craters in fields behind the town. Casualties have been remarkably few.

Bombing is without a doubt more damaging. Dover suffered more damage and casualties in a thirty second bombing attack than it has in weeks of shelling.

Perhaps the bravest of a brave town are the young women telephone operators. They work on the top floor of a large building throughout the fiercest shelling or heaviest bombing. They never take shelter. Take the boss of the switch-board, pretty, 21-year-old Phyllis Bastock. If Dover was being shelled off the map of England, she would stay up on the top floor, and put your call through to London—if you asked her nicely!

One evening when things were really tough, and even the telephone operators had been advised to take cover, she remained so that I could put a twenty-minute call through to the London bureau of International News Service. Because of her courage I was able to get a three-hour beat. No wonder the

LEADERS SHOW MILD RALLY IN STOCK MARKET

Federal Reserve Announces Department Store Sales Hits High Level.

NEW YORK — Leading stocks displayed mild rallying tendencies in today's early market transactions.

A prop for market sentiment was seen in the federal reserve board's announcement that its seasonally adjusted index of department store sales for November rose to the highest level in recent years.

Holders of utilities noted the warning of Leland Olds, chairman of the federal power commission, that rearmament may bring an electricity shortage of 1,500,000 kilowatts in key industrial areas of the nation by 1942.

It was estimated an expansion of generating capacity to bridge this gap would mean new investment of some $150,000,000.

HELLO! HOW'S THE PUBLICITY DEPARTMENT?
HECK! JUST WHEN I GET HIM ALONE, BEEZEY BARGES IN - HERE HE COMES NOW! I'LL GET RID OF HIM!
I'VE SIMPLY GOT THE KEENEST IDEA FOR A PUBLICITY STUNT - I'M GOING TO HAVE BEEZEY JUMP OUT OF A BURNING PLANE WITHOUT A PARACHUTE AND TRY AND LAND IN A NET

WHY, THERE GOES BEEZEY NOW! LOOK AT HIM RUN!
THAT'S FUNNY! YOU WERE JUST TALKING ABOUT HIM!

Mother Kills Three Small Children, Ends Own Life

ILLNESS SEEN AS CAUSE FOR OHIO TRAGEDY

Bodies Found In Farm Home Shot Through Hearts; Note Explains.

EATON, O.—Preble county authorities today dismissed as triple murder and suicide the deaths of three small children and their 28-year-old mother.

The bodies, each shot through the heart, were found in separate beds in their farm home west of here. Beside the mother, Mrs. Dorothy Alice Crouse, lay a 22 caliber target pistol and at the head of her bed was pinned a penciled note. "I cannot stay here longer."

The slain children were Curtis Neal, 3; Gene Everett, 4, and Viola Ann, 6.

Coroner C. Walter McCool said there was no sign of struggle and that the children might have been drugged before they were shot.

Everett Crouse, husband and father of the victims, was at work in Middletown when notified of the tragedy. He said his wife had been in ill health and underwent a serious operation two months ago.

Each child was shot through the heart, and Curtis and Viola had additional wounds in the head.

Crouse was quoted by officials as saying that his wife Thursday drove with the children to Middletown to hunt a house for rent.

Mrs. Frank Crouse, at whose home her son, Everett and his family lived, returned from shopping at Dayton late yesterday afternoon to find the doors and windows locked. Forcing entrance at a window, she discovered the bodies.

In addition to her husband, Mrs Dorothy Crouse is survived by her parents, Mr and Mrs. William Frech of El Dorado, in northwest Preble county, three brothers and two sisters.

All of the bodies are at a funeral home in West Alexandria.

Bomber Takes Off On Second Leg of Flight to Chile

(Picture on Page 3)

MIAMI, Fla.—(INS)—The giant U. S. army bomber flying Senora Hermina Davila, wife of the former president of Chile, to her home to recuperate from a serious illness, was to take off on the second leg of its flight to Panama City early today after an overnight stop here.

Senora Davila, her husband, Carlos Davila, and other members of their party spent the night at a Miami hotel.

The huge bomber left Mitchell field, Long Island, at 1:31 p. m. yesterday and arrived at Miami at 7:40 p. m.

The plane was placed at Senora Davila's disposal by President Roosevelt. She is recuperating from two serious operations and her physicians believed the warm Chilean climate would be beneficial but a journey by ship was deemed too arduous.

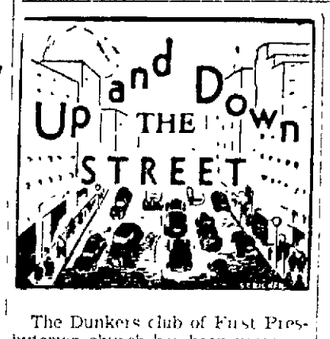
Strikes Tie Up Northwest Lumber Industry



The Dunkers club of First Presbyterian church has been reorganized for better and bigger dunking parties. This club is made up of men of the church who are the most active workers and they meet about once a month for coffee and doughnuts. When new members are initiated they must stand at the head of a long table and demonstrate their dunking technique to the satisfaction of the older dunkers. All members sit with thumbs up while the demonstration goes on, but if the new member fails to dunk properly, all thumbs are turned down until he does it right. Dunking isn't merely a matter of dipping a doughnut in coffee, members maintain, but an art.

While hunters were tramping the fields for rabbits the other day, four Mansfielders tried some late season fishing in the Mohican river near Brinkhaven and came home with the best catch of the season. Here's a suggestion for the city park board, and it comes from one of the skaters at North Lake park who admits he isn't so young but still enjoys the winter sport. He suggests that benches be placed at the south side of the lake for skaters who rest between rounds. At present the skaters sit on the iron chains stretched across the park—which has its drawbacks especially for the older skaters.

Mansfield youngsters this year are wasting no time in tipping off Santa Claus as to what they want for Christmas, according to Postmaster H. E. Homberger. During the past few days, letters addressed to "Santa Claus, North Pole" have been coming into the postoffice regularly. One of the letters which came in this morning had a note written on the outside of the letter, instructing the mail man to "be sure and see that Santa Claus gets this."

REGISTRATIONS TO REACH 1,300

1,128 Aliens Already Get Fingerprinted In County; Deadline Dec. 26.

With 1,128 aliens already fingerprinted andregistered, Postmaster H E Homberger predicted today that the number might reach the 1,300 mark before Dec. 26, the final day for registration.

In August, when registration got under way, it was estimated by authorities that only 1,000 aliens were residents of this vicinity.

"According to reports received from Cleveland, Mansfield has more aliens per population than that city," Homberger said. "The number in the Mansfield area has exceeded all expectations."

Meanwhile, this week all alien inmates of the Ohio State Reformatory were fingerprinted and registered by George H Hoover, secretary of the Mansfield district of the federal civil service commission. This week Hoover will register and fingerprint alien residents of the county infirmary and other county institutions.

Homberger also warned all aliens in this vicinity still not registered that only heavy fines and imprisonment await those who fail to register before Dec. 26.

Bedfast aliens or those who cannot come to the postoffice for registration, Homberger said, should notify postoffice authorities and a representative from the postoffice will call and complete registration and fingerprinting in the home.

NAVAL BATTLE NEAR BRAZIL SEEN BREWING

Neutrality Zone Patrolled In Search For Further Sea Action.

(Continued From Page 1)

do so, some quarters believed she would follow the example of the British cruiser Exeter, which limped to the British Falkland islands naval base after fighting the Graf Spee early in the war.

They pointed out that the Carnarvon Castle may keep away from Montevideo because of complications which might arise owing to the reported presence aboard the auxiliary cruiser of German prisoners seized from the Brazilian steamer Itape.

Nevertheless, the British hospital and community here continued preparation to receive the vessel and its crew and to care for the wounded.

While British naval units hunted for the German raider that damaged the Carnarvon Castle and wounded or killed some members of its crew, Brazil began an investigation of the battle.

The commandant of the Brazilian air and naval base at Rio Grande Do Sul sent patrol boats and planes to the scene to determine whether the battle was waged inside the 300-mile neutrality zone.

The British hospital in Montevideo prepared to receive more than 100 casualties from the Carnarvon Castle, although the number of dead and wounded was not yet known.

How badly the Carnarvon Castle was damaged in the fight was not known. Some Uruguayan naval circles suggested that the German vessel—which may have been the Luetzow or the Admiral Scheer—bolted after firing a few rounds and that the Carnarvon Castle headed for Montevideo "merely to leave the raider in the hands of the regular British fleet."

Reliable reports indicated that the British hunt for the German ship is being conducted on a major scale. British naval headquarters in the Falkland islands were said to have ordered almost the entire South Atlantic squadron to the battle scene to carry out the search. These forces consist of several cruisers, some destroyers and various auxiliary craft.

It was learned semi-officially that the Carnarvon Castle radioed the British naval base yesterday morning that she was chasing an enemy raider which was escaping owing to superior speed. This report was said to have added that a large number of shots were exchanged but that few reached their mark owing to the great distance at which the battle was fought.

Sea Prowler Type Described

LONDON —(U.P.)— The German sea raider which battled the British armed merchant cruiser Carnarvon Castle probably was a ship of 10,000 to 12,000 tons of the type of the former German prison ship Altmark, with a speed of about 19 knots, naval experts said today.

This, they said, would explain her ability to outrun the Carnarvon Castle, which had a speed of 17 knots. The admiralty had reported the German ship "steaming north at high speed away from the scene of action," when the British ship gave chase.

It was believed that the German ship was an armed merchantman rather than a pocket battleship and that it mounted eight 5.9-inch guns, since that was the armament known to be on a German raider operating in the Atlantic six months ago.

Heavy Attack Made on Bristol

LONDON—(U.P.)—German bombers last night made a heavy attack on Bristol, England's seventh largest city and terminal for many of the supply convoys from Canada and the United States.

It was the third heavy pounding the city, population 400,000, had taken within a week. Although last night's raid was broken up before midnight it was on the "blitz-raid" scale.

The raid followed the single town, "one-blitz-per-night" tactics of the Germans. Elsewhere through England there were only scattered, "nuisance" alarms.

Not a bomb fell on London during the night although there was a brief alarm before midnight. It was apparent that the raiders, flying in over the southeast coast from French-Belgian channel bases, had passed up the capital for the raid on the Bristol channel town. Londoners followed custom, however, and went to the air raid shelters after their evening "diversion."

Attack Centered On Air Bases

LONDON—(INS)—British bombers once again attacked units of the German war machine during the night, concentrating on air bases used by the Nazis in their raids against Britain, it was announced today.

"RAF bombers last night carried out raids against enemy airdromes in occupied Belgium and northern France," an air ministry communique stated.

The air ministry also announced that British planes again bombed the Albanian port of Valona yesterday.

At Valona, the announcement stated, a direct hit was scored on a munitions dump, a motor transport parking space and military buildings also were hit. All the British planes returned to their bases, the statement said.

U. S. Bomber on Mercy Flight

The ailing wife of Carlos Davila, former president of Chile, center, is pictured on a stretcher aboard a U. S. army bombing plane before it took off from Mitchell Field, N. Y., for a mercy flight to Santiago, Chile. President Roosevelt placed the flying fortress at the disposal of the stricken woman when physicians said the climate of her native homeland might save her life. At right is an unidentified friend.

miles north, after "strong and fruitless resistance."

He indicated official announcement of the fall of Argirocastro was expected hourly.

Tepelini, where the road north, like that through Chinara, leads to the important port of Valona, was reported menaced also by a Greek thrust from the east.

The Greeks were said to be driving a spearhead toward Tepelini from Premet, less than 20 miles east along the Viosa valley road.

The spokesman claimed other victories for Greek mountaineer regiments converging toward Elbasani, 25 miles from the Albanian capital of Tirana, along the Pogradetz-Elbasani road and up the Devol river valley northwest from Moskopolis.

The Greeks reported that in addition to large quantities of supplies found undamaged by fires the retreating Italians were said to have started in Porto Edda, vast stores of war equipment and munitions had been discovered hidden underground at Koritza.

Believe Duce Faces Crisis

LONDON — (INS) — Belief that Premier Mussolini is confronted with the most serious internal crisis since the early struggling days of the Fascist regime as a result of the resignation of Field Marshal Pietro Badoglio and the failure of the Greek campaign, prevailed here today.

British quarters asserted neutral diplomatic reports indicated a definite lack of enthusiasm on the part of the Italian people for the war in Greece, and great shock at the defeat of the Italian armies in Albania.

The British were jubilant in the belief Mussolini made one of the greatest blunders of his entire career—a fatal one, they hoped, by invading Greece without proper preparations and at the wrong time of the year.

Elsewhere in Ohio seven persons were killed in traffic mishaps.

Hollywood Speaks---

—By ROBBIN COONS

HOLLYWOOD—We'll take an hour's cruise today on the good ship Ghost, out of San Francisco in the year 1900. We'll see strange sights, and hear strange things, and we won't get anywhere.

Hope you're not seasick, because the boat is rolling—even though the water is calm.

* * *

The water below doesn't make any difference, because the boat is on rollers. Water "on the walls" doesn't make any difference either, because it's just an effect—and so natural you could dive in and almost feel the wetness. "The Sea Wolf" is already an improvement in this respect over "The Sea Hawk," picture which first used the new cellophane "horizon."

You're not really crazy. That fellow in hipboots walking in the ocean below is just sweeping the waves. He's scooping up cigaret butts, bottle tops, and assorted flotsam from the waves. And that fellow at the Ghost's wheel isn't crazy either. Sure, he's not sailing the Ghost anywhere, but he's doing "his individual business," as Director (Skipper) Michael Curtiz has instructed everybody to do.

* * *

The movie skipper, old Wolf Larsen (Edward G. Robinson), is having a bit of a verbal scrap with a rebellious youngster fished from the sea (Alexander Knox). But that needn't concern us any more than it concerns a lot of other people on deck who are doing strange things.

Like the fellow named Jimmy who is keeping the smoke coming from the tin smokestacks of the cabin behind Wolf Larsen. "Keep the smoke coming Jimmy," somebody tells him, and how Jimmy does keep it coming!

Like the three fellows who stand offside and gently wave their tin cans This is a sea picture, and what's a sea picture without fog? And what's a sea picture without a breeze, to waft the fog into the scene? The breeze is there because three other fellows, on platforms out in the water, are attending to gently turning fans.

Like the gent in the vest, with the natty Van Dyke, who steps out from time to time and sprays oil on Robinson's face and Knox's face, to make 'em look sweaty. "Make-up," they call him.

* * *

Like the fellow who takes a hose and sprays a fine stream over the ship—because a ship ought to be wet, shouldn't it?

Like John Garfield, who shows up with a mild beard and has to go back for a half-shave because the stubble is too stubbly for the time lapse since he last appeared.

And then there's Skipper Mike, who's responsible for the synchronization of all these technical efforts. Mike is always pulling Curtizisms—like "When he calls you a thief, you BLUR up."

Mike after several takes have blurred up, calls for another

"Better we do it now than at the preview," he says sagely, which is no Curtuzism but serene wisdom.

AN INDEPENDENT NEWSPAPER

MANSFIELD, OHIO, SATURDAY, DECEMBER 7, 1940.

Drive carefully tomorrow—and remember that December is a particularly hazardous month for motorists.

If you are one of the many who dislike to form in line at the parcel post window, remember to do your Christmas mailing early.

"Mayday" has been voted by a college poetry class as one of the most beautiful English words—but the slight change to payday is preferred by some less poetic souls.

Guards for School Buses

ACTION by the Richland County Automobile club to set up further safeguards against injury of children boarding or alighting from school buses merits commendation and should receive immediate co-operation of boards of education and school officials throughout the county.

However rigid the law may be on this subject, the fact remains that entirely too many school bus accidents have occurred in this vicinity in recent months and punishment of offenders is secondary to consideration of ways to prevent such unfortunate occurrences.

It is proposed to delegate boys of suitable age to act as guards and display "stops" signs while school children are boarding or alighting from buses.

As a part of its service the Auto club offers the equipment for these guards, as is now being done for Mansfield's schoolboy patrols, which have been doing an excellent job in the vicinity of school buildings.

Drunken Engineer Reinstated

MANY years ago the railroads discovered that the operation of a train could not be safely entrusted to an intoxicated engineer. Absolute sobriety while on duty has long been accepted as an inviolable rule among railroad employes—with assured dismissal awaiting an occasional offender.

Now, however, it is to be different, if a decision of the national railroad adjustment board holds.

The ruling, as explained by the Pennsylvania railroad, came about as follows:

In February, 1939, that railroad company dismissed an engineer who reported for work in an intoxicated condition. His condition was attested by other members of the crew and by a physician who examined him immediately. He also had a record for drunkenness and rule violation having been twice suspended and reinstated, once in 1935 and again in 1937, when he was warned that the next dismissal would be permanent.

The case was taken before the national railroad adjustment board, which, on a technical point hinging on date of the dismissal notice, decided the man's discharge was unjustified, ordered his reinstatement and awarded him approximately $5,000 in back pay.

It appears that, under present laws, the national railroad adjustment board is vested with as unlimited powers as the national labor relations board. It is to correct such bureaucratic edicts that the Walter-Logan bill, just passed by congress, is intended. President Roosevelt is expected to veto the bill.

Limited or Unlimited Tenure

NOW, if ever, is a good time to consider, and discuss, the third-term issue, as it was presented in the recent campaign and in which lively interest continues.

The view is widely held in both political parties that election of President Roosevelt to a third term does not settle the question and that the matter of presidential tenure must sometime be definitely acted upon by congress or through a constitutional amendment.

This subject has already been discussed by a number of senators and quite likely the six-year one term idea will be actively promoted in the new congress, with the at least interesting suggestion that a retiring president be given a life term in the senate, for which any one of them would seem eminently fitted.

Far removed from the next presidential campaign, it would seem that next year would be a fitting time in which to crystalize public opinion on this subject and decide whether limited or unlimited tenure in the office of president is preferred by the American people.

Accidents Continue To Happen

THIS week's air liner crash in Chicago, with nine fatalities, is followed by the customary "thorough investigation" and efforts to make "recurrence of such an accident impossible."

The record of commercial air lines has been surprisingly free from such tragedies, considering the number of miles flown each year, but no way has yet been found to insure against the occasional mishaps which are probably overemphasized on account of national prominence of one or more of the victims.

Man About Manhattan

—By GEORGE TUCKER

NEW YORK—Ben Bernie, a thoughtful chap with the softly flowing drawl of the lower East Side in his voice and a passion for anonymity and reticence in his soul that would shame a recluse, shifted his $2 cigar to the other side and reluctantly submitted to our candid interview:

"It is my belief," he said, "that it is in poor taste for any man, however successful, to sing his own praise. If you have talent, others will do it for you.

"However, since you are adament I suppose I shall have to give you a few grudging details. I love acting. I also love birds, books, bees, flowers, Hedy Lamarr, red neckties, horses, guns, fudge sundaes, and sleep-walking. You have no idea how much fun sleep walking can be. Why, once when I was walking in my sleep—but no matter. . . .

"I also ride, hunt, fish, play polo, golf, baseball, tennis, and box. When I was in college I was captain of the track team, swimming team, baseball and football teams. I also starred in the college plays as well as other things they do around universities.

* * *

"BUT you probably are more interested in my present work than in flashbacks on my undergraduate days," he continued, growing more reluctant to discuss himself with every flashback.

"You see, in real life I live my roles. I never touch alcohol in solid form. All my pictures require the largest sets as well as the most unusual yet constructed in Hollywood. Naturally, my type of art requires this. As to my make-up . . . well, they call me Bernie, the man of a million make-ups."

But let me tell you about my collection of objets d'art. Since you are sandbagging this information out of me, I will have to admit that I probably have the finest collection of cigar bands, tin foil, string, paper bags, and aspirin bottles in the country. My wardrobe also is said to be unparalleled.

"LUNCH is a favorite hour with me. Spying a group of Japanese, Chinese, French, Arab, Swiss, Hottentot, and Javanese refugees at lunch the other day, I had the satisfaction of greeting each one in his native tongue.

I forgot to mention that I also was known as something of a linguist at college. Odd how these silly little campus reputations follow a man through life. They're worse than reporters. They chase you like an insidious rumor. Well, that's life. But if you're trying to get any information out of me, you're wasting your time, brother, wasting your time! Me, Bernie, we don't know from nuthin."

HOROSCOPE

For Sunday, December 8.

SUNDAY'S horoscope is a very propitious and pleasant one, with the promise of lively and progressive events in the conventional affairs of the day, social, romantic and philanthropic. There may be particular impetus to intellectual forces, with some outstanding or remarkable discovery, invention or flash of genius or illumination, and this may have far reaching effect of deep or spiritual significance. Group work of a humanitarian nature thrives.

Those whose birthday it is may look for a lively and eventful year, with progress and pleasure as well. The intellect will be stimulated into strange fields of discovery or creative attainment in peculiar avenues of expression, amounting to illumination or inspiration of much significance.

A child born on this day will have some rare talent or inspiration which may lift it into a position of much high service for its fellows.

For Monday, December 9.

MONDAY'S astrological forecast is for a very enterprising day, with much stirring in both a business and private connection. In fact the latter in a social, domestic and affectional activity is quite likely to relegate the more prosaic interests to the background. There may be surprises in store to stress romantic adventures and to heighten their thrills and enjoyments.

Those whose birthday it is may prepare for a year of exciting and perhaps thrilling experiences, with much commotion and pleasant excitement, social domestic and sentimental emotions are due for surprising denouements, with the sterner affairs pushed into the background, although it is a most auspicious time to seek advancement or favors from those in high places.

A child born on this day will be very energetic, enterprising and have fine creative and executive ability, with success promised in any cause it espouses.

"Pitfalls of Love"

(A Sequel to Marriage Meddlers)

By ADELE GARRISON

LILLIAN ROSE from her bed with a defiant air as I started for the door.

"I know that call from Dicky must be about that errand of your father's," she said, "and that means there's some news concerning Marion. I'm going with you."

I stopped short, turned about and took her by the shoulders.

"You ought to know that I'll tell you about it immediately if the message even remotely concerns Marion," I told her with emphasis. "But, if you don't get back into bed and stop exhausting yourself needlessly, I shall ask Miss Whitlock to tell him I can't come to the telephone."

For a long second our glances met and held, while I wondered if my bluff would work. Then she spread her hands in a little gesture of surrender.

"You win," she said, "although I don't think you'd play out your hand at that. But I promised myself a few minutes ago that I wouldn't hamper you blessed people by my jitters, and I'm going to keep my pledge."

"Can Lil hear you?"

That was my husband's greeting, and the touch of excitement in his voice told me that he had news for me.

"No." I added nothing to the monosyllable, for I surmised he had no time to waste.

"Good! Here's the dope. I've located old Harry, had him on the telephone, and he's taking the first plane he can get for New York. He says he'll be here about midnight, but he wants us to stay until he gets here. Is there any reason why we can't?"

I made a quick mental estimate of the driving time to Weirhampton, and answered him in the manner he patently wished.

"No reason at all," I said. "What time will you be back?"

"In about ten minutes. Don't tell Lil about Harry's coming until I get there, will you? She'll want to know all the details, and I haven't time to spill 'em now. You'll keep mum, won't you?"

"Your obedient oyster," I murmured with my lips so close to the receiver that I knew Lillian could not possibly hear the rejoinder which would betray the fact that Dicky had news which he was not yet disclosing.

I heard a distinct chuckle. Then my husband said briskly:

"Okay! I'll sign off now. Be with you in ten minutes. Mind your step—and your tongue."

"I'll do both," I promised as I hung up the receiver and went swiftly back to Lillian, beckoning Miss Whitlock to come with me.

"Dicky simply wanted to tell me that he would be here in ten minutes," I said.

"He took a long enough time to say that," she said suspiciously.

"Indeed he did," I retorted, with pretended impatience, "and don't ever tell me that women are prolix and garrulous. Compared to men they're a collection of clams."

"I fancy you're right," she said listlessly. "But I did so hope he had some news."

Miss Whitlock interposed firmly.

"If he has you'll be in no condition to hear it," she said. "Suppose you shut your eyes and lie still for the next ten minutes."

"All right," she said docilely, "if Madge will stay with me."

"Where else would I want to go?" I countered, and then, sitting down beside her, I took her icy hands in mine while we waited for Dicky's arrival.

The ten minutes he had named were not up when Miss Whitlock brought him upstairs. He came directly to the bedside and, stooping, kissed his old friend tenderly. I half expected her to break into tears, but she evidently was sticking to her promise of no jitters, for with steady voice she asked: "Have you news of Marion?"

STAR STRUCK + + + + + + +

CHAPTER XVI.

Glory replaced the receiver slowly.

"But that's ridiculous," she said aloud. "Scottie must be wrong. Allan can't be engaged to Mona. He's going to marry me!"

"Who was it, Baby?" Helen called from her room.

Glory stood in the doorway and stared with unseeing eyes as Helen moved dresses and shoes from the suitcases to her closet.

"It was Scottie," she answered. "He said that Mona has announced her engagement to Allan in the morning paper."

Even Helen, who was only too ready to believe the worst of Allan was surprised. "What kind of game is this, anyway?"

Glory decided to break her promise to Allan about keeping their coming marriage a secret. In the face of Mona's announcement, she had to talk things over with some one.

"Last night Allan told me we would set the date for our wedding as soon as he got things started on his new picture. In about two weeks, he said. But he asked me not to say anything about it."

Helen sat down on the bed and lit a cigarette. "It doesn't make sense," she said.

"Allan loves me," Glory insisted. "If he didn't, why would he ask me to marry him? Why would he give me this ring?" She glanced at the square-cut sapphire on her finger.

Helen shrugged. "I never did trust Allan Rhodes but even so, he wouldn't announce his engagement to Mona just after he had given a ring to you."

* * *

Glory's thoughts were in a whirl. That long distance telephone call he had in San Francisco last night from Hollywood. Could that have been Mona? Is that why he had to come back to Hollywood?"

Her face was so white that Helen said, "Take it easy, baby, and remember this. Allan has spent every available moment since he came back with you. As far as we know, he hasn't even seen Mona. Allan wouldn't be seen in San Francisco with you one night and announce his engagement to another woman the next morning."

"Then you don't think Allan knew anything about this?"

"I do not." Helen replied firmly. "It is just a trick of Mona's. She thinks that if she announces their engagement publicly Allan won't dare deny it. Every one knows that they've been going around together for years."

"Perhaps that's why Allan didn't want to announce our engagement. . . . But why should he be afraid of her?"

Helen laughed. "Unpleasant publicity is poison to a man in Allan's position. The studio won't stand for it. But listen, Glory, no man is going to be railroaded into marrying a woman he doesn't love. If I don't miss my guess, Allan is going to be furious when he sees that paper. I'll go up to the corner right now and get a copy."

She had no sooner left the apartment than the telephone rang. It was Allan.

"Have you seen the paper?" he demanded.

"No, but Scottie phoned me about it," Glory replied.

She had never heard Allan's voice so hard. "That devil!" he said. "I should have known she'd pull something like this on me!"

"It doesn't matter what she says darling," Glory assured him. "You know this won't make any difference to me."

"It does to me," Allan replied fiercely. "I won't get away with it. I'll make her retract this if it's the last thing I do. I'm going to see her just as soon as I get through at the studio."

"Don't worry dear, please! I understand," Glory said soothingly.

"We'll have dinner together," Allan promised.

"Let's eat here. Tillie can fix us something."

"Okay, sweet!" Allan's voice was tender again. "See you later."

When Helen returned, Glory repeated their conversation.

"You've nothing to worry about," Helen agreed, spreading out the paper for Glory to read.

* * *

There it was, Mona's picture, and Allan's with the caption "Two stars to wed. . . . Last night Mona Greer admitted that she would marry Allan Rhodes sometime in the near future. . . .

Though the two stars have been friends for years they have persistently denied rumors that they would marry. . . .

Glory crumpled the paper. "Of all the nerve! Imagine announcing your engagement to a man who had given you up!"

The rest of the day passed quickly. Tillie returned and Helen good-naturedly agreed to go out for dinner.

"I think I'll step by and call upon our little neighbor Honey Newton. I'm dying to see that swank apartment of hers."

"She'll probably love that," Glory laughed remembering how carefully Honey guarded the secret of her luxurious existence.

"I should worry," Helen chuckled. "I'll do a little detective work and see if I can get a line on who's who and what's what."

At seven Allan arrived. White-faced and joyless, he scarcely touched the dinner Tillie had prepared. When it was over and they were back in the living room Glory asked "Did you see Mona?"

Allan nodded. "We had a terrible scene. She first vowed to sue me and drag you into it."

"But how could she do that?" Glory asked with a little laugh.

Allan shrugged. "She has letters. . . . She can cause plenty of trouble."

"Allan you won't let it make any difference? About us, I mean?"

He drew her into his arms and cupped his hands about her lovely face. "Of course it's not going to make any difference," he said grimly. "You're the only girl I've ever really wanted to marry."

His tenderness thrilled her. "Then don't be afraid."

But suddenly Allan rose. "I am afraid," he confessed. "She's the most ruthless woman in the world and I'm afraid of what she can do to my career! She gave me my start and she's got too much influence. She'll do everything she can to ruin me!"

"But, Allan, you're a star in your own right. What can she do?"

"Publicity! Publicity!" Allan almost shouted. "The studio told me today I'd have to keep her quiet. They won't stand for any scandal."

"What are you supposed to do about it?" Glory asked.

"Give you up?" Allan replied simply.

"Oh Allan, did they say that?"

"That's exactly what they said. They don't care what my personal feelings in the matter may be."

"They can't do this to us!" Glory cried. "It isn't fair."

"Don't worry, sweet! I won't let them dictate to me. I'll think of something."

* * *

With an aching heart, Glory watched him pacing up and down in front of her fireplace. She knew that he loved her, but his career was so important to him. How cruel that the studio should make him feel that it was his duty to go back to Mona! Her threats were ridiculous. Allan was too popular to be ruined even by Mona Greer. But Mona knew that she could frighten him by striking at his most vulnerable point. Allan loved Glory. Surely their happiness would be more important than any other argument. Painstakingly she pointed out to him how careless Mona really was. Carefully she built up the idea that his position was assured regardless of Mona's threats. For almost an hour she talked to him and was rewarded by seeing the tense look leave his handsome features.

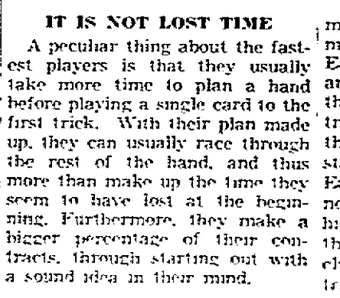
"The Authority on Authorities"

IT IS NOT LOST TIME

A peculiar thing about the fastest players is that they usually take more time to plan a hand before playing a single card to the first trick. With their plan made up, they can usually race through the rest of the hand, and thus more than make up the time they seem to have lost at the beginning. Furthermore, they make a bigger percentage of their contracts, through starting out with a sound idea in their mind.



(Dealer, East. East-West vulnerable.)

1 NT	2 ♣	Pass	2 ♦
Pass	3 ♣	Pass	3 ♦
Pass	3 NT		

You will agree that today's problem is one in which the correct play does not look easy. It is certainly far from the obvious one, but in the quickest fashion. Yet it could be accomplished by South if he had given even a brief amount of thought to the situation.

West led the spade 3. North playing the 7, East the K and South the 8 without having stopped to size up the problem. Little did he realize at the moment that this was the crucial mistake which beat his contract. East followed with the spade A and the 5, which South won. He then, striving to manufacture entries to the dummy too late, led the heart Q to the A, so he could start the diamonds with the K. East let that go, but took the next diamond as well as his two high hearts and his thirteener in the suit, and later he took the club K, setting the contract three tricks.

If South had counted, he would have seen he had to bring in the diamonds, and needed two entries to dummy to do it. A second one could have been developed by merely playing a spade honor under the 10 and another under the A. This would have left him the 8 to lead to dummy's 10. Diamonds could then have knocked out East's A, and the heart A would have been the other entry to run the rest of the diamond suit and make the contract.

PLAN PARTIES FOR NURSERY SCHOOL GROUP

Staff at Galion to Attend Training Conference Week of Dec. 16.

GALION — Focal point of interest in Galion to those who have in mind the welfare and development of children is the Nursery School, located in the specially equipped rooms at the East school.

Right now preparations are underway for Christmas parties for both the parents and children of pre-kindergarten age who comprise the group enrolled at the school.

These two events are slated for the coming week, it was announced Friday evening when the Nursery school parents held their regular meeting. The parties will have to be held next week because the school will close next Friday in order that the supervisory staff may attend a five-day training conference to be held in Columbus the week of Dec. 16.

Some 22 youngsters between two and four and one-half years, that period in life that is considered so psychologically important in the training of an individual, are attending the school now. They will benefit from the knowledge which their instructors gain in attending the training conference in Columbus. Sara Beegle, supervisor of the school, and her assistants, Mrs. Floris Arnold, Mrs. Hazel Berry and Mrs. Elvira Stinehelfer, will attend the conference which is being conducted for nursery school staff members from six counties of the Columbus district.

State Supervisor of Nursery Schools Mary E. Jacobs, the district supervisor, Martha Agler, and a former Ohio State university faculty member, will be in charge of the training course.

Mrs. Beegle and Mrs. Arnold will conduct group discussions during the conference.

In the very near future, a movie will be made at the Galion Nursery school of various activities and situations taking place at the school. This will be made by the Visual Education department of the Galion public schools under the direction of Richard Horn, and will be sponsored by the Nursery school parents and the Nursery school council. The latter group is composed of civic leaders and club heads, with the Galion public school superintendent, O. E. Hill, as chairman.

The Galion Nursery school has been in operation since January, 1934.

Meetings of the parents of the children who attend the school are held about every two weeks when problems pertaining to the training of the child are discussed.

At the meeting Friday evening social hours and refreshments followed the business and discussion periods.

Mid-West Gets Three Places on A-P All-America

ALL-AMERICA 1940

* * * * *

Harmon, Franck, and Alfson Are Selected; Kimbrough Back Again.

By HERB BARKER

NEW YORK—(AP)—Boasting the greatest concentration of football talent in its history, the Middle West dominates the 16th annual All-America team, selected today by The Associated Press on the basis of a nationwide survey of expert opinion.

Led by the powerful Western conference where Minnesota, Michigan and Northwestern set a rapid pace, the Mid-West places three men on the first team and ten men, all told, on the All-American squad of 33, divided among first, second and third teams.

* * *

Trailing the Midlands are the South and East, with seven players each on the full squad; the Southwest and Far West with four each and the Rocky Mountain sector with one.

* * *

Completing another season of spectacular play, four members of the 1939 All-American ensemble are selected again—Tom Harmon, Michigan's sensational halfback; John Kimbrough, smashing fullback of the Texas Aggies; Nick Drahos, Cornell's great tackle, and Paul Severin, North Carolina end.

Serving with Kimbrough and Harmon in the backfield are Frank Albert, Stanford's clever field general, and George Franck, speedy halfback of Minnesota's undefeated juggernaut.

Filling out the line positions are Erwin (Buddy) Elrod of Mississippi State as Severin's running mate at end; Bob Reinhard of California, serving with Drahos at tackle; Bob Suffridge of Tennessee and Warren Alfson of Nebraska at the guard posts, and Chet Gladchuk, huge Boston College star, at center.

Of these, all except Albert and Reinhard are seniors, furnishing a sharp contrast to the situation a year ago when six juniors won places on the All-America. Albert and Reinhard are juniors.

As chosen, the All-America team has all the necessary qualifications of speed, skill, brains, and durability. The line, anchored by the 242-pound Gladchuk, averages 202 pounds. Kimbrough's 222 pounds brings the backfield average up to 190.

A superlative, powerful runner, a good passer, kicker and blocker and defensive stalwart, Harmon caught the headlines from the start and deservedly so. Starting with his 28-point splurge in Michigan's opening game with California, the Gary Thunderbolt was a star in every game and wound up the season with 16 touchdowns and 117 points.

In a year of great fullbacks, Kimbrough stood out like a beacon light. During the early part of the season, Kimbrough was used principally as a blocker and decoy although when the Aggies needed a few yards they continued to hand the ball to John and await developments. Coach Homer Norton says Kimbrough wasn't really turned loose until the Arkansas, Southern Methodist and Rice games and Jarrin' John responded by smashing out better than 300 yards in those three games.

Franck earned the fourth backfield place only after stern competition from all sectors with Bruce Smith, his Minnesota teammate, among the leading challengers. On the whole, however, Franck rated as the most valuable all-around performers on the Gopher team which swept through a gruelling schedule without a setback. A dangerous break-away runner, exceptionally fleet of foot, Franck was a standout except in the Ohio State game when he seldom carried the ball and was used principally as field general.

END play this year was not up to the standard of other seasons but Elrod, a main cog in the tough left side of Mississippi State's powerful line, would have been a standout in any company. He rates as one of the greatest defensive wingmen the South ever has seen and that section has seen some great ones.

A good pass-catcher, brilliant downfield blocker and savage, sure tackler, Elrod suffered a fracture of two bones in his right hand in mid-season yet played out the season as sensationally as he had begun it. For two full seasons, he never was circled or run over for a first down. Opposing backs have lost more ground at his end than they have gained, an extraordinary record.

It was not until the Duke game that Severin clinched his place on the All-America for the second year in succession. Troubled by injuries in several mid-season games, the North Carolina star came back with a smashing finish. It was his magnificent defensive play that saved North Carolina in the unexpected victory over Duke and the close tussle with Virginia.

FOR several reasons, probably mostly psychological, Cornell's great outfit ran into two defeats at the end of the season but no blame for these could be attached to the Big Red's great tackle. Nick Drahos, who retains his All-America place without dispute.

His All-America running mate California's Reinhard, is one of the greatest linemen developed in the Far West in recent years.

The guard positions go to Suffridge and Alfson after a brisk debate with Marshall Foch Rohnett of Texas A. and M., generally rated the outstanding lineman in the Southwest.

Back in the form of his sophomore year when he was selected for the third team, Suffridge was outstanding in every game Tennessee played.

Alfson was the key figure in Nebraska's crack line a quiet, workmanlike player who did his job without fanfare but with superlative skill. He always seemed to be in the right spot at the right time, not solely because of his speed but also because of his skill in judging the opponent's offensive moves.

His most spectacular defensive exploits came when the first-string line was rushed in to stop Minnesota's attack after the Gophers had first down on the five-yard line, and again in piling up Pitt's attack when the Panthers reached Nebraska's seven-yard line with first downs in the closing minutes of that game.

Butler, Lexington, Union Share Lead In County Race

Bulldogs Smother Lucas, 46-23 For 2nd Win; Union Whips Madison Five.

By CHARLES MARTIN
(News-Journal Sports Editor)

BUTLER — That pre-season prediction that Butler high is the team to watch in the Richland county basketball league championship race this season apparently doesn't bother the Bulldogs.

* * *

Today Coach Bob Burgett's rangy combine is still in the undefeated class and is sharing first place with Lexington and Union after registering an easy 46 to 23 win over Lucas on the Butler high hardwood last night.

* * *

Butler treks to Madison to tackle the Rams in one of the four league settos on tap for followers tonight.

The Butler mentor sprinkled his lineup with reserves when the varsity players were pulled late in the third frame, but Lucas was unable to throttle them.

With Dave Grubb, six-foot four and-a-half inch center, and Jack Wilson leading the attack, the Bulldogs ran wild and scored 10 or more points in all but the opening stanza.

Lucas went down to defeat, but the individual performance turned in by Bob Gilliland, Cubs' forward, was spectacular. He personally accounted for 17 of his team's 23 points.

The Bulldogs led 8 to 2 at the end of the first frame, 20 to 8 at halftime, and 30 to 15 as play was resumed in the final quarter.

The Butler reserves outscored Lucas, 16 to 8, in the last chapter. It was Butler's third win—two of them scored in league play.

* * *

Grubb collected 11 points while Wilson added 12 to the total. Echelberger was the only other Lucas player to score a basket against the stout Butler defense.

In the preliminary contest, the Butler seconds scored a thrilling 12 to 11 victory over Lucas's seconds.

Last-Period Rally Gives Union Thrilling Win.

A last period rally enabled the Union high cagers to turn back a determined Madison high combine, 30 to 29, in a thrilling Richland county league setto on the Union court last night.

* * *

Behind by a 23 to 21 count as play opened in the final quarter, the Union team outscored the Rams, 9 to 6, to emerge with the decision.

* * *

Madison seeking to register its first league win, will return to action at 8 p. m. today by entertaining the high scoring Butler high team at Madison.

The Union triumph enabled the club to retain a share of first place with Butler and Lexington in the circuit race.

The Rams, playing their initial game, gained a 9 to 8 lead in the first quarter and then fell behind 20 to 15 at the rest period.

But with Windsor leading the way, the Rams limited Union to one point and picked up a 23 to 21 advantage as play opened in the last chapter. Windsor led the losers with 13 points.

* * *

George Curry, veteran Union guard, set the individual scoring pace with 15 tallies, scored on five field goals and a like number of free throws.

The Minutemen maintained a share of first place here last night by marking up a 23 to 15 victory over Shiloh—and it marks the second circuit game in which the opponent has been held to 15 tallies.

* * *

Lexington will go after its third triumph by invading Plymouth to clash with Plymouth high in a league setto tonight.

Led by Sheldon Dillon, who hit the basket for eight points, Lexington moved to the front in the early seconds of the contest and never trailed.

Club Unable To Stop Albans; Seeks First Win In Senior High Gymnasium.

COLUMBUS—Mansfield high's Tygers returned to their home lair today to await the invasion of Findlay at 8 p. m. in the Senior high gymnasium.

Coach Vern Hoffman's Tyger quintet, handicapped by lack of height, will be seeking its initial triumph of the season, having dropped its opener to Columbus South high, 35 to 28, here last night.

Mansfield, with only two veterans in the lineup, saw victory hopes fade last night when Ernie Alban's, South high's high-scoring forward, rattled the backboards with ease.

With Jack Shiplet and Dick Burkholder leading the way, the Tygers jumped into the lead in the early minutes of the first period, but South soon took command.

Albans, who won the Capital City individual scholastic scoring championship last season, started hitting in the initial quarter. His five straight points in that frame put his team out in front.

The two combines fought on even terms at the outset and Gene Emmer put the Tygers ahead by a point margin on a free throw, but they couldn't hold the lead.

Mansfield fell behind, 9 to 5, in the first stanza, 16 to 11 at the intermission and 27 to 22 as play was resumed in the fourth chapter.

* * *

Shiplet, one of the veteran backs, collected six markers and played a brilliant defensive game, while Burkholder scored eight points.

* * *

Albans set the individual pace for the evening with 17 markers.

Believe it or not . . . a skunk has entered into the employ of the New York State Conservation Dept. This little forest performer is regularly established at the Saratoga nursery of the department, and is on the job each day, eradicating grubs at the world's largest tree production plant. His pay is the grubs he digs and eats, which are a menace to millions of seedling trees and transplants.

When thousands of crickets sulkily refused to perform before the camera in a cricket plague scene for the movie "Brigham Young," a sack of jumping beans was rushed to the studio by plane from Mexico City. The energetic beans, mixed with the crickets, soon had them jumping too.

A single grizzly bear remains in Arizona of the many thousand reported in this area in the last century. The animal authority lives in the Apache National Forest, said the forest service in its big game census report. The count ten years ago placed Arizona's grizzly population at from 50 to 100.

BOMBED DOVER 'CARRIES ON'

Britain's Front Line Town Doesn't Rival Pompeii Ruins Yet.

(Continued From Page 1)

black-haired Phyllis is one of my heroines.

In contrast to fearless youth there is more British courage to be seen in old Ted Henness, Dover's 60-year-old Irishman, who boasts he is the nearest Briton to Hitler's French coast.

Old Ted owns a vegetable patch on Shakespeare Cliff, which juts out into the channel further than any of Dover's chalky cliffs

He still wears the emblem of the Irish fusiliers, for as a boy in his teens he fought the Boers From 1914-18 he opposed the Kaiser's Germany, and now in 1940 he is still in the front line

Dover still has plenty of entertainment. At the city hall you can dance yourself dizzy on Wednesdays and Saturdays.

Dover's ancient vaudeville show kept going until it was too difficult to get artists down from London. This was because of the fantastic rumor of Dover's ruins You can get a shave too, during a raid without having your throat cut Few hands are unsteady now

We still play games I can always get a partner for tennis, and never missed a morning swim in the harbour during August and September. The older men play bowls and take their game far more seriously than they do the shelling

Front line farmers carry on as though nothing is happening Some of them have had cows and horses machine-gunned, but only a few.

One big advantage about Dover is that we always get a good night's rest. The Germans pass over on their way to London, but Dovermans sleep on. Restrictions are few. Of course you can't walk along the boardwalk after dark without a special permit, and certain areas are mined, but you hardly notice it.

Dover people were a little anxious between the 12th and 18th of September last It was a grave week. I can recall September 14th perfectly I had escaped with my life by good fortune when the Germans dive bombed the Grand hotel. I was playing table-tennis in the basement at the time The ceiling came down but apart from the dust my journalist colleague and myself were unharmed

We ran upstairs to find a few remains of what had been the Grand hotel And they began shelling us We helped in the rescue work. And they kept on shelling for the next three hours.

In the evening I drove up on to the cliffs to watch the flashes of the German guns. Once when I heard the whistling of a shell unpleasantly near I took shelter in a derelict house. At least that was what I thought. Imagine my shock when I nearly had a bayonet pushed in the seat of my pants by an enthusiastic sentry. I had innocently gatecrashed a camouflaged observer's post! I had to produce my identity card and press passes before the sentry lowered his bayonet, and then he got friendly.

"Do you want to see some of Hitler's barges, chum?" he asked

He took me upstairs, and through powerful lenses I was amazed to see some fifty or sixty barges massed to the west of Calais

"There's four hundred somewhere round there," he laughed. "The lights failing badly now, but we double-checked them this morning. The fun's going to start any day now, and, boy, are we pleased."

His confidence warmed me a little, but I must confess I felt a little uneasy when I phoned London to say that we were having our longest shelling raid, and that the invasion was nearly "on"

It was something of a scoop, for that night Prime Minister Winston Churchill warned every man and woman for the first time that the invasion must be expected at any day, and that barges were massed along the Norwegian, Dutch and Belgian coasts

We since know that the invasion was ready for September 16th. The fact that it never came is one of the reasons for Churchill's words "Never before have so many owed so much to so few" The R. A. F did their grandest job of work And the people of Britain's front line town know the full meaning of those words.

sons calling are asked to identify the family by number.

Today's first family, is a "club" family":

Family No. 13.

Four adults and nine children, of which five are in school The father was in private employment in the same place for 16 years, but he was dismissed for a younger man. Worry and years of hard work brought about paralysis of a nerve in the arm and right now he is unable to work as the arm must have rest in order to recover. Mother, who is not well, does everything to keep off relief, canning food throughout the summer and making comforts and quilts out of old clothing But they need help and a big basket of food would brighten this home on Christmas day

FAMILY NO. 14

Two adults and three children Father has some WPA work when the weather is favorable and is willing to work at anything. Has a daughter who needs school clothes—size 12 or 14—to see her through school this year There is a thin fellow who needs a new sweater and a couple of shirts for school, and brown-eyed youngster who needs everything that is a necessity for a three-year-old All of them need to be reminded that the Christmas spirit burns as brightly as ever

FAMILY NO. 15

Three in the family, with a boy in junior high school In this little home there is a great deal of sickness The mother does her household work under a constant handicap of pain. Just the thought that some one was thinking of them would brighten this home. Besides a cheery, substantial Christmas basket, there is need for a warm winter coat, size 58.

FAMILY NO 16

Two adults and eight children Here's a family for some group to adopt The father is tubercular and the mother spends all of her waking hours in mending and patching and doing the thousand tasks required by a family of this size There are six children in school Five boys need clothes and stout shoes, there is a girl of 7 who likes crayons coloring or a doll to mother a baby girl old enough to reach out for a bright toy, and a school girl, large for her age who needs clothes in size 38 or 40

FAMILY NO. 17

Two adults and three children. Father willing to work but unable to find much employment because of handicap The two boys have raised most of the family's food and an older daughter does domestic work They need some clothing and food

It's deep-rooted and ever-present and universal...this craving for the news. We give it direct expression every time we greet a friend with "What's new?" We let it have full reign when we reach for the daily newspaper.

What's new? What did the school board decide last night? Did Mrs. Taylor get her divorce? How was the concert? What's going on in Washington? London? Berlin? Moscow? Tokyo? Rome? Who was elected president of the Ladies' Auxiliary? What did the raiding bombers do today? Did copper go up or down? Who won the game?

What's new?...in politics, business, foreign affairs... in society, sports, fashions...in music, art and the theatre? We want *to know*...because we are curious by nature, because we like to be well-informed...and because we realize that each day's events may affect our welfare and our happiness.

Only in newspapers can we satisfy this constant hunger for the news. Only in newspapers can we get a quick, complete and accurate account of happenings at home and abroad.

And today, when the news is so vitally important to all of us, we read the newspaper more eagerly, more thoroughly than ever before. That's why the newspaper, which has always been a profitable medium for advertisers, is a more profitable medium today than ever before.
